2. Research Plan

(1) Positioning of Research

With regard to the research project you plan to undertake if selected for this program, explain the current status of the discipline, the background to the problem you will investigate, and what inspired you to formulate this project. Explain your plan in comprehensible terms, using conceptual diagrams and other aids as necessary.

Please keep this section ([1] Positioning of Research) to one page, and you may use any font size, color or black and white, and layout. There is no problem if the contents of this application form overlap with those of JSPS Research Fellowship for Young Scientists.

Research Plan (continued) (2) Research Aims and Content

① State the aims, methods, and content of the research project you plan to undertake if selected for this program.

2 Provide specific information on what your project will shed light on and to what extent, and your plan for doing so.

③ Provide some explanation of the characteristics and points of originality in your research (comparison with prior research, anticipated impact upon completion of the project, future prospects, etc.).

④ If your project is situated as part of the research activities of the laboratory you belong to, make it clear what parts of the project you will be responsible for personally.

(5) If you plan to undertake research at a research institution other than Kyoto university (including a research institution outside Japan) during the course of this project, provide details.

Explain your plan in comprehensible terms, using conceptual diagrams and other aids as necessary.

Additionally, please keep this section ([2] Research Aims and Content) to two pages. You may use any font size, color or black and white, and layout.
